

MIP2008 in Kobe

Fifth International Workshop on Molecularly Imprinted Polymers

Rokko Hall, Kobe University, Japan

Sep. 7-11, 2008

The Fifth International Workshop on Molecular Imprinting (MIP2008) will be held from Sep. 7th to 11th, 2008 in Kobe, Japan, as the first international meeting on molecular imprinting in Asia. This workshop will highlight recent research activities on molecularly imprinted polymers (MIPs) and related science and technologies all over the world, focusing upon;

- 1) New concepts and principles
- 2) Sensors and chips
- 3) Nanotechnology and Microfluidics
- 4) Separation media
- 5) Biomacromolecules
- 6) Others

Plenary Lectures

Komiyama, M. (University of Tokyo, Japan)
Kunitake, T. (University of Kitakyushu, Japan)
Mosbach, K. (Lund University, Sweden)
Shea, K.J. (University of California, Irvine, USA)
Willner, I. (Hebrew University of Jerusalem, Israel)
Wulff, G. (University of Düsseldorf, Germany)

Abstract-deadline May 31, 2008
